

STUDENT INFORMATION SHEET
Please fill out the following information.

Name: _____ Nathan Yu _____

Date of Birth: ____ December 28, 2008 _____

Schedule for the semester:

PERIOD	SUBJECT	TEACHER
1	Calculus and Vectors	Mr. Dababneh
2	World Religions	Mr. Febbraro
3	Computer Engineering	Mr. Roche
4	Computer Engineering	Mr. Roche
5		
6	English	Ms. MacQuarrie

Why did you decide to register for this course?

I registered for this course to learn about the hardware components of the computer. Along with that, I hope to learn how code interacts with the hardware.

Is there anything you would specifically like to learn or do in this course?

I specifically would like to learn about how different components of the computer functions.

What are your plans for the next six years?

Attend a university for mechanical or civil engineering and continuing through to a Master's degree.

Where would you like to be, and what would you like to be doing in 20 years?

I would like to see myself in a job creating machines and infrastructure, generally trying to make the world a better place.

How would you rate your level of skill/motivation in the following areas?

Bold the number that applies to you.

	Low		Medium		High
Current technologies:	1	2	3	4	5
Computer programming:	1	2	3	4	5
Computer Hardware:	1	2	3	4	5
Written Communication:	1	2	3	4	5
Spoken Communication:	1	2	3	4	5
Work Ethic:	1	2	3	4	5

Are there any issues or concerns that your teacher should be made aware of in order to increase your chances of success in this course?

I need time in class to work due to a lack of time at home.

Currently, there is a major trend towards using technology in all aspects of our lives. We communicate, work, and play with technology all of the time.

Indicate some advantages of this trend, or how it has made life better.

Allowed better communication between individuals.
Faster transfer of information.
Ability to work from almost anywhere.

Indicate some disadvantages of this trend, or how it has made life worse:

Most jobs have been replaced and removed.
Devices are addicting and could often be distracting.
Prolonged use would cause health issues.

If you could be known to have invented any computer electronic device in the world, which one would you want it to be and why?

I would choose to be known for inventing the microchips as most future devices use these chips as their brain to function.
